

THE BUILDER, of MARCH 6th,
an illustration of GEORGE JENNINGS'S
LAYING OF THE SCHEMATA, AND HIS PLACES, &c.
is published by the author, at the corner, and further
on, of the street leading to the High-Pressure
works, near the India-Rubber Tube Works, Cloutier Street,
London, Great-Oxford-street, Westminster-road.

36 PER CENT. SAVED IN Plumber's Work by using
JENNINGS'S CLOSURES, which are made to suit from a
variety of sizes.

The Health of Towns Commissioners having recommended the adoption of the high-pressure principle in all towns, WARRNER'S HIGH-PRESSURE CORK COCK is recommended as a Cock free from leakage, and suitable for all purposes and situations. Patent Clamped Joints with supply-valve for attaching direct to main pipe without a return, cocks, or wire.

LEAD, IRON, AND TIN PIPE,
JOHN WARNER AND SONS, Manufacturers, 2, Crescent,
Leamington, London.

These Clogs have, during the last 500 years, been extensively and most successfully used in many Towns under conditions of high pressure, varying from 120 to 160 lbs.; their efficiency and durability is to experience established.

They are stronger than the common Clogs and certain in its action. Manufactured from self-selecting and other elements, upon economic principles, suitable for public buildings, extensive, highways, boats, etc.

THOMAS LAMBERT and SON,
Shoe and Iron Founders, Short-street, New-cast. Lambeth.

No. 14.	13

These pipes are made under steam pressure, and burst to great hardness, and are capable of bearing nearly double the hydraulic pressure of ordinary glazed pipes. They are equal to red-iron cast-iron pipes by this manufacture. And it is well known that your customers, UNCLE SAM, is the oldest industrial discoverer in the world made in U. S. A.

JAMES STIFF, MANUFACTURER of GLAZED STONE WARE DRAIN PIPES, BENDS
JUNCTION TRAPS &c. 21 HIGH STREET LAMBETH LONDON. Established 1854.

Water Clean Pumps, with Siphon Traps, 74 in each.
STRAIGHT TUBES, in Socket Joints, in 2 foot lengths.

The great advantage attending the use of these articles is now so generally understood, as to render any recommendation of them almost superfluous. Their cheapness, efficiency, and durability are universally admitted, while the ever increasing demand for them proves an estimated superiority over every other brand hitherto before the public for similar purposes.

Attention is invited to an immense stock of Drain Tubes, of every form and size, adapted to the various situations in which they may be required, as also to the WATER-CLEAN PUMPS OF IMPROVED CONSTRUCTION, and in better glass, far surpassing any other

N.B. These are made without the disturbance being turned down wards.

May be had also at Messrs. GLADDIS'S LINE WHARF, Red-rose, Westminster-bridge; City-road Wharf, City Hall; Dock
head, Barnardsey; Dancer's Wharf, foot of Battersea bridge, Chelsea; Fresh Wharf, Kings-road, Camden New Town.
Dressings and List of Prices to be forwarded on application.
